SUMMARY

Master's student in Artificial Intelligence and Computer Engineering | Passionate about data, young student who loves self-education and seriousness, I master programming languages like Python and database queries like SQL even data visualization tools like tableau, looking for opportunities where I can apply and improve my skills .

TECHNICAL SKILLS

Java	Tableau / Power Bi	Data Anlysis
Python	MongoDB	Git / GitHub
SQL / SqlServer	WebScraping	Machine Learning
Kotlin	Computer Vision	

PROFESSIONAL EXPERIENCE

Web Developer Intern   **April 1, 2024 – May 31, 2024**

- Design and development of a web application for managing end-of-studies internships using Angular (primeng) and Spring

PERSONAL PROJECT

Data Warehouse Integration (CRM + ERP) | SQL, SSMS, ETL

- Design and implementation of a scalable data warehouse by consolidating fragmented data sets from CRM and ERP systems.

Customer & Sales Performance Dashboards | Tableau

- I developed two interactive Tableau dashboards to analyze customer behavior and sales performance, providing actionable insights for business decision making.

EDUCATION

Master in Artificial Intelligence and Computer Engineering

- 2024 – In progress | Faculty of Science and Technology

Bachelor's degree in distributed computer systems

- 2023 – 2024 | Faculty of Science and Technology

University Diploma in Science and Technology

- 2021 – 2023 | Faculty of Science and Technology

BACCALAUREATE in mathematical sciences

- 2020-2021 | Mohamed 6 High School

ADDITIONAL INFORMATION

- **Languages:** English, French, Arabe.
- **Certifications:** Git and GitHub from **365 DataScience** , Scrape the web with Python from **le Wagon**.
- **Hobbies:** Design , Football , fishing , basketball
